**Topic: Assessors Role After a Disaster**

WCAA and MAAO have done similar seminars in the past, but you never know when Disaster will hit...so we need to be prepared. Learn how the Assessor's office can be effective in the face of disaster for its community and emergency services. This event is going to teach you the real nuts and bolts of Assessing in a disaster. You will learn how to process and figure out supplemental billing, supplemental abatements, and why GIS is now more important than ever. Bill Mitchell worked through one of the most devastating events to hit our state (the Tornado of 2011) and what he learned is invaluable to the rest of us. You will walk away from this event with the confidence you need to face your next disaster!
